Come and meet Yangon's Social Circus teams and have fun learning circus skills

Social Circus Yangon develops skills, improves concentration, confidence, co-ordination and self-esteem. And it's a lot of fun too! A Serious Fun project which began in 2014, Social Circus Yangon engages disadvantaged and at-risk children and young adults, and is building momentum for a locally-led social circus movement in Myanmar.

Circus4All was established in 2015 after a training for people working with children with disabilities. Circus4All has evolved into a mixed ability performance troupe committed to celebrating inclusion and diversity.

International Social Circus Day 2 April celebrates the positive impact of social circus around the world. Social Circus Yangon is one of 37 groups taking part in the Asia Pacific region.
